

THE ECHO

April 2019

President's Report

With the arrival of April and spring, I'd like to update you on the HAH Lodge Deck project that so many of you generously donated to. To recap, HAH's Management Committee approved the development of a deck expansion project in spring 2017. They also authorized the Food, Fun and Fellowship subcommittee to develop that plan and to begin raising funds. Member Patrick Lynch and family member Dan Krygier developed the conceptual plan. HAH member Kathy Clevenger has spearheaded the fundraising effort.

The collaboration has been very successful. At this time, more than \$70,000 is available, architectural drawings have been developed, and a structural engineer has been contracted to ensure that the structure meets all pertinent safety guidelines. Safety is a particularly important issue, even more so than for most home decks as the Lodge deck will be approximately 1,000 square feet in size and will stand 14 feet in the air. The deck structure has also been designed to stand alone, as it wasn't a certainty that the Lodge structure could sustain the additional weight that would be imposed by a deck. HAH members who might dance or even tap their toes to the music while on the deck during a concert in the amphitheater need the assurance that they are doing so on a safe structure.

The plans have been uploaded to a web link and contractors are now developing bids. The bid deadline is March 27. In addition,

a committee of highly regarded professionals has been pulled together to review the bids and recommend the winning bid to the Board. Because we live in such a vibrant community, I am delighted to report that each of these professionals is also a HAH member. They include a licensed architect from a highly respected Columbus architectural firm, a senior project manager from a major Ohio academic institution, and other individuals who either work or have worked in leadership roles in large multi-faceted and complex organizations. Their charge will be to keep community-wide interests and safety in mind as they do their work.

I need to note that a small group of people is trying to derail this project by asking some donors to pursue the return of their donation. I will not speculate about their motivations, but I would note that they have had no direct involvement in this project at any point. The project indeed has taken longer than one might expect, but for sound, practical reasons as described above. The fact is that no one who has donated to the project has asked for a refund, but we have received many very reasonable requests to do this project well. My assurance to you originally and today is that the project will be handled and completed as professionally and thoughtfully as we know how.

I can also state that no funds have yet been spent from the fund-raising. The cost of the architectural drawings and plans and for the structural engineer have

been separate gifts. It has long been my experience that a project like this deserves the time needed to do it right. We will do that.

If you are interested, there is a link on the front page of the Club web-site that will direct you to the plans that will be used by the contractors for bidding.

On another important topic, I have spoken many times in this report about the need for an assessment increase to fund projects important to the community; our budget is very austere and no longer can provide for key projects needed to maintain this community's infrastructure and safety. As mentioned in my earlier Echo reports, the Management Committee in collaboration with others has devoted a great deal of time to evaluating and prioritizing the many projects that are needed. It is worth paraphrasing part of my February message: *One example of deferred maintenance is very noticeable as you journey through the Hills, and that is the condition of our ditches and culverts. Many of these are deteriorated, and as a result, threaten portions of our road system. Deferring this project much longer will inevitably result in the need to spend an even greater sum of money later. Additionally, no funding is available in our current budget for an enhanced security gate system, and for post office improvements to make these buildings more functional and to address water issues that create icy and slippery conditions.*

These are among many pressing needs that the Management Committee has been working on. Their process will be finished very soon, and they will bring a proposal and rationale to the BOT's May meeting for an assessment increase. Based on their evaluation and discussion with the Board, a proposed assessment increase amount to be voted on at the August Annual Meeting will be decided. This is in adherence to HAH Rules that any such increase be announced at least 90 days before the meeting. Opportunities to learn more about why the assessment increase is needed and to ask questions will be available.

As you will likely recall, an assessment increase failed last August by a very small number of votes. I am hopeful that you will be fully convinced this year by the Management Committee's efforts to develop thoughtful detailed im-

provement plan. Important projects must be funded so that we can maintain our roads, facilities and the security of our community.

All the best,
Jim Krygier

Golf Committee Announcement

As most golfers realize, our course was closed to golf carts for much of the last few months due to members disregarding this Cart Path Only notice. In an effort to keep our course open year round to golf carts, the committee will be instituting a stricter Cart Path Only Policy.

The committee met with Management and Maintenance to come up with the following solution:

1. Cart Path Only will be strictly enforced and possible fines issued with no further warning.
2. Golf Committee members will be reporting any violator to the General Manager. We also encourage any member who sees a violator to take a picture with your phone and email to gm@HAHClub.net.
3. Specific holes that are especially sloppy may be closed to carts while the rest of the course is open. Signs at the tee box will provide this notice.
4. Off limits areas will be clearly marked.
5. A grass path will be created from the 6th tee box down to the paved path on the 3rd fairway. The grass will be allowed to grow longer to handle the wear and tear of carts. This is to be used during any Cart Path Only period.
6. The course superintendent will closely monitor the course during the week and tend to the Cart Path Only sign visible on hole 1 tee box and hole 9 exit. The Golf Committee designee will monitor the course conditions on the weekends.

In addition, any golfer with a handicap placard on their automobile may apply to the Golf Committee for a handicap flag for your golf cart. This special exception will allow cart access to most parts of the course even during Cart Path Only periods.

With these guidelines, everyone will be able to enjoy the course year round.

Thank you,

The Golf Committee

NEWS FROM THE RANGE

April 2019

Happy Spring, at least according to the calendar! Not much activity this winter but we are gearing up for warmer weather; and, hopefully, increased use of the Range by our members and their guests.

Home Gun Safety - National statistics show that tens of millions of guns have been purchased over the last few years; many have probably found their way to HAH. In a lot of cases, new owners have received little or no training on the proper safe handling and storage of weapons in the home. Our certified instructors can assist with any questions you may have,. Make an appointment to meet with us and we will commit to making your experience at the Range as safe and enjoyable as possible.

Hours of operation are from 9 A.M. to sunset on Saturdays and Sundays from 12 P.M. to sunset. **Please be courteous and give the Range Officer on duty a 48-hour notice of your intentions to shoot. The on-duty Range Officer has the authority to close the range due to safety concerns or inclement weather.**
